

Learning how to channel.

A small introduction:

Thank you very much for purchasing my Channeling Manual. It is my life purpose to be of service to others and provide wisdom and knowledge. I do believe that knowledge is energy, and the energy, to be on its finest stage, it needs to flow and move, instead of being static. Sharing with others the wisdom I gained through this years (both from human and non-human teachers) fills my heart with joy and excitement.

This manual is intended to teach you how to channel. We all have a wonderful chakra system that we can put into good use. If you are reading this, it means that you have an interest in expanding your spiritual skills and I am honored that you are using this medium to assist yourself in your journeys. You will find both teachings and exercises that will assist you in expanding your full potential in the beautiful art of channeling.

I have charged this document with Reiki Energy with the specific intentions of bringing wellbeing to you as well as expanding the potential of your chakras. This will bring better and higher energy into your body and thus, improving your life dramatically. You can choose to print this manual if its more comfortable for you!

It is an honor to be of service to you. If you believe that this manual is not enough, I do offer mentorship and personal one on one training. Please do contact me at fernando@fernandoalbertmedium.com if you desire further help.

You are blessed, empower and healing. May your life be full of wisdom, joy, passion and bliss.

Namaste,

Rev. Fernando Albert.
